

Ribbed 3 Piece Rod Seals - Metric

Our ribbed 3 piece rod seal is used as an alternative to vee packing in a rod application. This 3 piece seal offers excellent low pressure sealing due to it's multi-lip NBR design. The header is made from PEEK and incorporates a nylon anti-extrusion ring which enables this seal to withstand up to 10,000 PSI.

Temperature: -22F to 248F

Pressure: 0 to 10,000 psi
