MS28774 Split PTFE Backups - Inch

ALTERNATIVE SEALS:
8-, 18-, 51-, MS27595, MS28782/83

| EXAMPLE: MS28774-352 | |
|----------------------|--------------|
| Prefix | AS568 DASH # |
| MS28774- | 352 |

These split PTFE backup rings are machined from virgin PTFE to military specifications and are popular in commercial applications requiring low friction, fluid compatibility or high temperature. These parts do not meet Mil-Spec testing requirements. Prices can be quoted for Mil-Spec applications requiring additional testing and certification.

MS28782 Spiral PTFE Backups - Inch

| EXAMPLE: MS28782-15 | |
|---------------------|-------------|
| Prefix | AN # System |
| MS28782- | 15 |

ALTERNATIVE SEALS:
8-, 19-, 51-, MS28774, MS28783, MS27595

These spiral PTFE backup rings are machined from virgin PTFE to military drawings and are popular in commercial applications requiring low friction, fluid compatibility or high temperature. The spiral design allows for ease of installation. These parts do not meet Mil-Spec testing requirements. Prices can be quoted for Mil-Spec applications requiring additional testing and certification.
